

lipbled®

notranja vrata / unutarnja vrata / interior doors

Vrata so naš svet!
Vrata su naš svijet!
Doors are our world!

Življenje ob majhnem alpskem jezeru obdanem z zelenimi gozdovi je nas, Blejce, naučilo ceniti in spoštovati naravo. In zato, ker naše surovine prihajajo iz gozdov, v podjetju *lipbled* še toliko bolj skrbimo za odgovoren odnos do narave.

Život uz maleno alpsko jezero, okruženo zelenim šumama nas, stanovnike Bleda, naučio je cijeniti i poštivati prirodu. Budući da naše sirovine dolaze iz šume u poduzeću *lipbled* toliko više brinemo za odgovoran odnos prema prirodi.

Living this small alpine lake, surrounded by green forests, has taught those of us that live in Bled to respect nature. It has made us deeply conscious of the fact that our raw materials come from the forest, which is why at *lipbled*, we take great care to cultivate a responsible relationship with nature.

Čista proizvodnja / Čista proizvodnja / Ecological production

V podjetju *lipbled* sledimo globalnim načelom preprečevanja onesnaževanja okolja in v skladu z najvišjimi standardi EU, gospodarno proizvodnjo ter uporabo naravi prijaznih snovi prispevamo k zmanjšanju obremenitve okolja.

U poduzeću *lipbled* slijedimo globalna načela za sprječavanje zagađivanja okoliša i u skladu s najvišim standardima EU, ekonomičnom proizvodnjom i uporabom ekološki prihvatljivih materijala doprinosimo smanjivanju opterećivanja okoliša.

At *lipbled* we are committed to global principles for the preservation of our environment. Our economical manufacturing processes and use of environmentally friendly materials, meet the highest Eu standards and contribute to the reduction of environmental degradation.

Kultura bivanja / Kultura stanovanja / Ambience

Rezultat prepletanja sodobne tehnologije in človeškega dotika so uporabni, estetski ter naravi prijazni izdelki, ki vas razveseljujejo ter v vaš dom vnašajo toplino in prijetnost.

Rezultat preplitanja suvremene tehnologije i ljudskog umijeća su upotrebljivi, estetski i ekološko prihvatljivi proizvodi koji vas razveseljavaju i u vaš dom unose toplinu i prijetnost.

Our useful, esthetic and environmentally friendly products combine state of the art technology and craftsmanship to bring a seanse of warmth and pleasantness into your home.

OSNOVNA TEHNIČNA NAVODILA

Notranja vrata so prirejena za hitro in enostavno suho montažo s poliuretansko peno.

Pred montažo vrat morata biti zid in tla dokončno obdelana ter v okviru dimenzij, ki so podane.

Zid in robovi zidne odprtine morajo biti ravni, vzporedni in stati v vertikalni oz. horizontalni ravnini. Talne letve ne smejo biti pritrjene. V primeru zidne odprtine s pragom ali v primeru nestandardnih mer odprtin se posvetujte z našim prodajalcem.

OSNOVNE TEHNIČKE UPUTE

Unutarnja vrata mogu se brzo i jednostavno montirati s poliuretanskom pjenom. Prije montaže vrata moraju biti zidovi do kraja obrađeni u okviru potrebnih dimenzija. Zid i rubovi zidnog otvora moraju biti ravni, paralelni i moraju stajati u okomitoj odnosno vodoravnoj ravnini. Podne letvice ne smiju biti postavljene. U slučaju nestandardnih mjera otvora posavjetujte se s vašim prodavačem.

GENERAL TECHNICAL INSTRUCTIONS

Interior doors are finished for a quick and easy dry installation with polyurethane foam. Walls and floors must be finished prior to door frame installation. Floors, walls and wall openings must be vertical, level and made to standard dimensions. The door frames must be assembled and built in strictly according to the instructions. In the event that the openings have nonstandard measurements, consult our sales representative.
